Professional Summary

Motivated Cybersecurity learner with a strong foundation in networking, network security, ethical hacking, endpoint security, and threat management. Passionate about building hands-on cybersecurity labs, documenting practical projects, and continuously improving technical skills. Currently expanding expertise in Cisco CCNA, CyberOps, Microsoft Azure Security, and Penetration Testing while developing a professional cybersecurity portfolio.

Technical Skills

Networking

- TCP/IP
- IPv4 & IPv6
- Subnetting
- VLANs
- Routing & Switching
- DHCP
- DNS
- NAT
- ACLs

Cybersecurity

- Network Security
- Ethical Hacking Fundamentals
- Endpoint Security
- Threat Management

- Network Defense
- Vulnerability Assessment
- Incident Response Fundamentals
- OSINT

Operating Systems

- Windows
- Linux (Kali Linux)

Security Tools

- Wireshark
- Nmap
- Burp Suite
- Metasploit (Learning)
- Cisco Packet Tracer

Cloud & Platforms

- Microsoft Azure (Learning)
-

Certifications

- Cyber Security
 - Networking Basics
 - Ethical Hacker
 - Endpoint Security
 - Threat Management
 - Network Defense
-

Currently Learning

- Cisco CCNA

- Cisco CyberOps
 - Microsoft Azure Security
 - Penetration Testing
-

Projects

Developing practical cybersecurity and networking labs, including:

- Packet Tracer Networking Labs
 - VLAN Configuration
 - Inter-VLAN Routing
 - Static Routing
 - Network Security Labs
 - OSINT Exercises
 - Penetration Testing Practice Labs
-
